...

What is the best way to deal with thousands of pro Trump supporters January 6? Push the certification off with a ten day evaluation of evidence. They go home happy. Then go ahead and certify Biden January 17 because they looked and didn't see evidence.

▼ Trust, like respect is earned. Also as Reagan said; "Trust but verify."

I don't trust the promises of any politician.

188 No 10 day investigation. If they wanted one, they could have had one anytime over the last 60 days. They are looking for a way out of angering all the Trump supports, don't give them an out, they must reject the fraud state electoral votes on the 6th. Or else.

18 There is NOTHING to investigate. There is ZERO evidence Biden even came close to being President: he lost ALL bellwether states and counties (save for one) to an incumbent who GAINED votes. It is an indisputable fact the states in question stopped counting on election day for no valid reason other than to remove observers and witnesses to their widespread election fraud. Congress is NOT a court. They are not there to convict individuals of election fraud beyond a reasonable doubt. There is no burden of proof to meet--Congress only job is to REJECT suspect electoral votes. Get with the program Ted or get out of the way.

2 Evidence is never deleted. If they factory reset the dominion machines we can determine that which would be illegal. If they replace the hardware, we can determine that. If they bleach it like with a cloth, we can determine that. Any of this would mean results can't be certified.

[permalink](#) [parent](#) [save](#) [report](#) [block](#) [reply](#)▲ [Yeeticus](#) 1 day ago +3 / -0

3 The thing is, if they factory reset it, the finding would say "yes, that was illegal, but since we don't know what they deleted we don't want to accidentally throw out legitimate votes and disenfranchise people, so we're going to allow it. But don't worry-- we'll form a committee so this doesn't happen again!"

111 ▾ The unconstitutional parts of the cheat are not disputed, so those states that did that lose electors. They are voided this time. You cheat, you lose. Don't follow the rules, lose. That is the message that is needed to be heard by these states. The people there can take it up with their state legislators and cheating governors. Those are the people that disenfranchised them.

There has been major, major allegations of fraud which need to be addressed on the 6th. If the evidences bear out to be true, then there will be fraud recorded as fact to have occurred. This will allow VP Pence to refuse electors from fraudulent states and send it back to the House where each state will cast only one vote. Ted Cruz needs to quit trying to elect Biden and get firmly behind President Trump.

honestly, the time has just passed. we sat patiently while they exhausted all the legal options and day after day our government and courts shit all over our rightful votes, so now we can sufficiently say they brought this on themselves.

It's straight up offensive to hear them say there "may be" some voter fraud. There is simply too much right in front of our faces to accept that insulting response.

CTs point is that the Senators don't want to commit to straight-up supporting Trump. We asked them to make a Written Objection to MI, GA, AZ, etc. Electors, which would trigger a debate and roll call vote. Cruz & Pals don't want that because their vote will reveal whether they stand with POTUS or not. So instead they make speeches about election integrity and call for an investigation into what "may be" fraud.

Nope. No delays or diffusions

“ that says he won't reject the ballots

I haven't seen this anywhere. If you're talking about the DOJ's request to get Gohmert's lawsuit tossed then you're not using your head. The court dismissed it on no standing go figure, which means now the Congress or Democrats can't sue Pence either. Professor Eastman also iterated that VP has the power to not count the electoral votes. It would be asinine to decide to count them after it's debated with vast evidence against them. VP's chief of staff said Pence was concerned about the fraud today. Pence isn't a bad guy my friend

No dude what did pence say TODAY?????

he welcomes the reps to reject the ballots and debate them.

But it would never even get to that point, if pence rejects them so he would never make that statement.. by him saying "I welcome the challenge of the ballots" what he isn't saying is.... He will not reject them.

How he gonna welcome something that he makes impossible??????????

(Also louie said he said no... Do that's why louie sued him... 🤔)

Oh also dude you're wrong the court didn't dismiss based on "no standing" as you claim... They said "your suing the wrong person" which in itself makes you wonder if pence is even going to be there... Because pence isn't the wrong person unless he isn't VP or isn't in attendance. For some reason .

Since we all know the evidence is overwhelming, it provides cover fire to those weaklings. I think it is a great plan to get those on the fence to join it once the ball is rolling downhill. Hawley was the bold one, no doubt, and I wish it had been Cruz saying this, but the idea of the group is excellent and a good way to get weaker people onboard. Surprised Cotton hasn't joined already. 3 You don't need 10 days for jack shit. Based on the evidence, it should be 10 days to prove Biden and the democrats didn't cheat if anything. You got it backwards. If they can't prove they won fairly, it's because they didn't. When they need to hide and destroy evidence, refuse for cases to be heard in court for bullshit reasons, and dual electors are sent because they all got caught, you don't have a fair and transparent election. You got treason. Quit bullshitting, the games are over.

2 A 10 day commission is a really good idea...

However... it's ONLY a good idea if the actual evidence is aired AND there are specific rules that all Network TV stations are REQUIRED to cover the full event unedited and without commentary.

After 10 days of that... there would not be any American left supporting Joe Biden or most elected politicians in any State or Federal position.

10 The Left does not *care* if no one actually supports them. Only that they have the means to force

▼ submission anyways.

A real good idea if you're one of the congressmen that has realized we are literally going to hang them in the streets on the 6th..

Not if you're we the people it's a horrible idea

No, that should have happened anytime over the last many many days where we've had enormous evidence. That is not acceptable to do at this point.

Horrible idea! They had 60 days to clean this up. They must decertify and declare Trump the winner. You cheat you lose. No questions and no rubber stamp from the establishment doing their little investigation.

It's ONLY a good idea if it started 2 months ago. At the very least 10 days ago.

If they try and force everyone to wait until after the 6th, use your guns to convince them otherwise.

Otherwise all this is for nothing. They aren't going to stop unless we make them stop. Fuck these monkey politicians!

This is exactly what the weasels are going to do!!!! We are going to have to occupy the commie shithole known as Washington D.C. until GEOTUS is inaugurated. Its time for us, The Patriots, have to run that bitch Bowser and all her commie cops, cucks, and sympathizers out of town because we cant leave our dude there alone in that swamp. We have to make sure FLOTUS and Barron can walk down the street safely. I think all the neo-cons even the ones proposing the contest to the election have to be primary-ed out and claim what is rightfully are. We need to start the PATRIOT PARTY! and start working out a long game strategy to claim back our beautiful country.
